"The crop conditions for this season," the Commissioner says, "have been much more favorable than last year, with the exception of the cold weather of April and May, which retarded the planting of the corn crop and prevented that which was planted from coming up, thus necessitating replanting in some sections, and the dry weather in June, which injured to some extent the growing crops, the season of 1895 can be said to have been generally favorable, and an abundant yield of all crops is assured.

WHEAT, CORN, OATS, HAY, ETC.
"A large improvement is reported in the wheat crop over 1894. The prospect in 1894 was only put at 22. The acreage of the wheat crop was reported in 1884 to be \$5, this year it is put at 23, a decrease of only 2 points.

"The prospect for corn this year is put at \$7, a degreease of 5 points over 1894. The farmage of the planting of the corn crop, and injured in some sections that which was planted, The acreage this year is put the prospect in province of the conductor of the conductor of the prospect of the corn crop, and injured in some sections that which was planted, The acreage this year is 94, last year 162. Favorable conditions from now until the gatherian of the crop will bring the yield up to that of last year.

"The reports indicate that there will be a large increase this year it is put at \$8, with an acreage of 22, 1 point below that for 184.

COTTON, TOBACCO, AND POTATOES.

"Eleven counties in the State report on cotton, and give the prospect at 78. The prospect for last year was 85. This decrease in the prospect for last year was 85. This decrease in the prospect last, being 162 in 1894 and only 68 in 1856.

"The rease this year of last was 75; this year it is placed at 80. The acreage devoted to the crop this year, 87—an increase of 10 petus over last year, such acceptant over last year and acreage of the Irish potato crop is about the same as last year.

"The prospect and acreage of the Irish potato crop is about the same as last year. The prospect, 1854, 88. The acreage for both years is reported at 68. The acreage of the sweet potato crop from 56 in 1861 to 85 in 1865. The yield was calculated hast year to be 8 per cent, of a full crop; this year it is placed at 83 per cent.

PEANUTS, PASTURES, AND FRUITS.

"Twelve counties report on peanuts, and place the prospect for a yield at the same figure as last year, 81. The acreage this year is reported at 89—an increase of 10 per cent, over last year.

"The cold, wet weather of the early spring of 1894 retarded and injured the pastures very much. This year the season has been more favorable and the condition this year is put at 56—an increase of 10 per cent, over last year.

"Apples, peaches, and pears last year were a failure throughout the State. This year a fair yield may be expected in all these crops. The prospect for a yield of apples is reported at 68, for pears 67. The grape crop is reported to have a prospect of 81—an increase of 10 per cent, over last year."

"WILL HAVE MANY FAIRS.
Colenel Whitehead also gives a complete list of fairs to be held this year throughout the State, They are as followed the state. This year a fair yield may be expected in the condition of the pasture was prospect of 81—an increase of 10 per cent, over last year."

THE BAR OF VIRGINIA.

Annual Meeting of the Association at the White Next Month. The Virginia State Bar Association is

soon to assemble again in annual meet-The next session will be held at the Greenbrier White Sulphur Springs on August 6th, and the new management of that famous resort promise this body of Virginia lawyers a warm welcome.

of Virginia lawyers a warm welcome.

The orator from abroad is Judge Roger A. Pryor, a son of Virginia, but now on the bench in the city of New York. His reputation for brilliancy as a speaker makes the event one of especial interest to all who expect to attend. Among the distinguished men who have in times past addressed these meetings are James C. Carter, of New York; Judge Charles F. Fenner, of New Orleans, and Mr. Leonard A. Jones, of Boston. Mr. Carter enjoys the distinction of standing in the front rank of American lawyers. Mr. Jones is the author of several excellent law-books, and his name in that connection is familiar to every professional man.

ADDRESSES AND PAPERS. miliar to every professional man.
ADDRESSES AND PAPERS.

ADDRESSES AND PAPERS.

In addition to Judge Pryor the programme calls for an address from the president of the association, Major Charles M. Blackford, of Lynchburg. Major Blackford is well known through the State; he is a polished speaker and writer, and his address will no doubt measure up to the standard of addresses delivered by his predecessors.

Papers are also to be read by Mr. George Perkins, of Charlottesville; Mr. R. Walton

Perkins, of Charlottesville; Mr. R. Walton Moore, of Fairfax, and Judge James C. Lamb, of this city, the latter to read a paper which had been prepared by the late

paper which had been prepared by the late Francis H. McGuire.

The association continues to grow, and apart from the pleasures incident to a reunion at a pleasant place of so many friends engaged in the same pursuit in life, the addresses and papers contributed contain the mature thought of men of experience in the affairs of life which furnishes entertainment and valuable sug-

gestiens to all persons interested in the history of the State or in public affairs. THOSE WHO WILL GO.

"Aye! There's the rub!" doom of bar soap. This rubbing with soap may get clothes clean, if you work hard enough, but can't you see how it wears them out?

Follow the directions that come on every package of Pearline, and you'd find that you not only do away with the hard and ruinous work of rubbin -but that you save time, and actually get better results. At every point Pearline is better than soap. But the mere fact that Pearline saves the rubbing—that ought to settle it.

BEWARE Peddlers will tell you "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled. My your grocer sends you an imitation, be honest-send it back. 463

COMPLETE FLOUR.

Wheat hernel split in Half.

When there is an official test in the Division of Chemistry at Washington guessing is at an end. The analysis of the COMPLETE FLOUR was found richer by nearly THREE HUNDRED PER CENT, than the finest flour on earth. A distinguished physician of trypina, after hearing the method of its manufacture, predicted it would be a godsend to dyspeptics. The Rev. Dr. Lewis, of Grenada, Miss., says: "It is a luxury to a weak, dyspentic stomach." Cathartic pills are thrown aside where the Complete Flour is used. The best grecers have the Flour.
